

Proposition om MRCIT:s mandatperiod

StyrIT

Bakgrund

The Master Reception Committee at IT (MRCIT) is currently elected at a division meeting every spring. Although beneficial for the division that some committees are not elected with all others during autumn, this has led to unexpected issues, such as:

- It has been somewhat difficult to gain traction with potential new members so long after the reception.
- The unique situation of MRCIT being Master students have resulted in the spring and continuity process currently overlaps work on Master theses, which severely impacts the availability of the MRCIT members and thus the quality of continuity.
- MRCIT occasionally presents unique administrative challenges for StyrIT/the division, where international members might need additional support in handling their work. Having more time to discover and work through such speedbumps before the transition to a new StyrIT could prove beneficial.

Förslag

Yrkar på:

att § 5.1 Tabell 1 på raden "MRCIT" kolumnen "Inval" ändras från "LP3" till "LP2"

att § 5.1 Tabell 1 på raden "MRCIT" kolumnen "Mandat" ändras från "1/3" till "1/1"
