

Create something great with us!

Ericsson Göteborg is looking for newly graduated SW developers!

Location: Göteborg, SE

Req ID: 32080

We are a world's leading provider of technology and services to telecom operators. Our company's portfolio comprises mobile and fixed network infrastructure, telecom services, broadband and multimedia solutions for operators, enterprises and the media industry.

We are now looking for passionate software developers to work with the functional development for next generation of Ericsson's Radio Base Station. Ericsson is the market leader in competitive, high-quality Radio products which gives our customer solutions securing future growth. We currently develop LTE, WCDMA, GSM Networks as well as Wi-Fi and Small Cell solutions to operators all over the world.

In return, you will gain experience in cutting-edge design technology, working in a high paced agile environment that inspires you to develop and grow.

What are we looking for?

We are looking for you who are newly or recently graduated with 0 to 5 years of experience. You will be involved in development of a wide range of innovative software products with the latest technology.

We are looking for persons with a strong drive and aim for results. You work equally well individually and in groups. You have high energy and are willing to learn new tasks and technical areas and are a team player who enjoys sharing your knowledge and skills with your colleagues.

The work is done in an agile way of working, where you will be a member of a cross functional team that covers Systemization, Software design and Verification. You will be developing software from customer requirement to delivery, primarily using C++, JAVA or C.

You and your team will be responsible for end-to-end solutions for Radio Base Station features.

What are you looking for?

This is a great opportunity to be involved in the development of the latest mobile system technology and to build knowledge at the leading edge of the future of mobile communication.

A career at Ericsson encourages you to aim high. You get to do your best, in a collaborative and constructive environment. We want you to think big, so we give you the freedom and support you need to turn your ideas into achievements. You will keep on learning throughout your career – we know that continuous learning is vital for retaining our position as a global leader in technology and services.

Ericsson is based in 180 countries, with 100000 employees, and your future career path is just about to begin...

These positions are based in Göteborg.

Qualifications:

You must have a Bachelor or Master of *Science* (e.g *Science within Electrical Engineering, Data Communication, Computer Science and Engineering, Software Engineering of Distributed Systems, Engineering Physics*) or equivalent formal education.
